Noted on Walk Mole Activity noted in backyards on 17 th Drive NW	Homeowner responsibility to take care of moles

Comments: Ficus White fly has been noted throughout Wisteria Park. Feeding by whitefly may cause yellowing of leaves, defoliation and branch dieback. West Bay has been treating the ficus, but it is a slow process to recovery. Please Contact Nicole@sunstatemanagement.com if you note White Fly on your Ficus. Next Walk around will be on March 6, 2020
